

Name and Surname of Student:

Barbara ANTEZANA

“Final Thesis”

“Confidential”

Title of Master Thesis:

**“Financial analysis in PGR’s mining projects of gold recovering and phytoremediation
in tailings in the Amazon Region of Peru”**

Name of Academic Director:

Jean DESSAIN

Academic year 2014-2015

Plan Summary

- 1 The research problem
 - 1.1 The research problem desired to work on
 - 1.2 The specific purpose of the investigation
 - 1.3 The contribution of the consulting project
 - 1.4 The research scope and boundaries
 - 1.5 The research questions
- 2 The literature review statement
 - 2.1 The literature review conceptual background
- 3 The methodology statement
 - 3.1 The conceptual model and propositions
 - 3.2 Data collection methodology and research design explain and justification
 - 3.3 Another alternatives of research design and the final election
 - 3.4 The purpose of the study
 - 3.5 Type of data and the sources of data
 - 3.6 Method of data collection
 - 3.7 The relevance of the method to the study
 - 3.8 Weaknesses and strengths of the data collection method
 - 3.9 Explaining and justifying the sampling design
 - 3.10 Explaining and justifying the measurement instrument
 - 3.11 Data analysis methodology
- 4 The Data analysis
 - 4.1 Results and data analyses
 - 4.2 Results interpretation and relation with the literature review
 - 4.3 Managerial implications

Summary

The present document is based on the consulting project experience executed for PGR firm. PGR is a Peruvian firm that pursues to start their operations in the Peruvian mining sector. The firm started a research 6 years ago to enhance their business proposal, especially in terms of gold extraction and phytoremediation in tailings or mining residuals that are mainly located in the amazon region of Peru.

PGR counts with a distinguished work team whose members have between 30 and 60 years of experience in the mining sector in Peru. During the last 3 years, they have transmitted their business proposal among different Peruvian institutions such as the Presidential Congress, the Ministries Presidential Council, the Lima School of Engineers, universities and public in general. The purpose of this intensive diffusion has been to find investors to join PGR and help them to start its operations.

In that sense, the purpose of the consulting project was to review PGR financial statements and to identify additional considerations that help to move PGR to a next step, attracting more the attention of investors in order to contribute to the aim of PGR, finding investors to starts its operations.
